RE: APPRECIATION FOR DONATION OF OXYGEN CONCENTRATOR AND MOSQUITO NETS.

On behalf of Runyenje's Sub-District Hospital working fraternity and administration, I take this opportunity to express our gratitude and appreciation for the concern and help you, as an organisation has shown on helping us develop as a hospital.

On 24th October 2007, the hospital received an oxygen concentrator, which was bought at Ksh. 180,000 (one hundred eighty thousand) in presence of the peacemakers co-ordinator, Mr. Kavungura, peacemakers m/s Warue Kauma and Jeconia Harrison. This machine is helping us in getting oxygen directly to the sick patients. It has also eased on us the burden of having to keep carrying the bulky oxygen cylinders whenever there is a patient who needs oxygen. It has also helped us to stop buying oxygen from Boc gases (ie. East Artisan oxygen) for it extracts oxygen directly from the air.

On an earlier date, you gave the hospital 80 (eighty) mosquito treated nets to be given to mothers and children.

We are looking forward, for your further future help. Your concern has helped us, as a hospital to be able to get to great development leaps.

Thank you for helping us acquire the equipment we could not as a hospital purchase.

May God bless you abundantly, as you go helping those in need of help.

Thank you

G.G. Mureithi
